"Why, Dad, you look like a million!"

SURE, there's a war on but, here in America, Dad still can buy a new suit when he wishes. And, though the wool may have come from the West; the cloth woven "down South"; the tailoring done in the East, Dad is able to buy the suit right in his home town.

Have you thought why? Simply because the railroad links his town with the rest of this great nation. It's a vital part of Dad's life even in so simple a matter as buying a new suit of clothes.

Every day, in many ways, your railroad is contributing to the American way of life. In fact, its first job right now is helping fight for that way of life. And, when Victory is won, your community, more than ever, can place complete confidence in the men of the B&O.

LEASED CARGO VESSELS

With the United States building 40.000,000 tons of merchant shipping | commencement | exercises | of | his | this year and next, the question of how to provide crews has been raised. Will America be able to train enough men?

A partial answer to that question is supplied by the new policy of the War Shipping Administration of leasing many of the new ships with a pleasant memory and the PUTATIVE PUNS ON-"HOW TO quest she said, "Certainly not, it's to the Allies, who will sail them with their own men. This policy has parent proud. Mr. Kelly probably brought a protest from Joseph Curran, president of the National Maritime Union, CIO, who declares the reported shortage of American sea- in order to make an accurate aprovmen is a fallacy. About 200 American-built ships will be chartered.

Eight Liberty ships already have been chartered to Norway, the Greek government will get two and the Dutch three. Britain has received five of the ships and will get fifteen or twenty more a month

Approximately 2,130,000 tons of shipping built in the United States will be charterd to the United Nations and operated by their seamen. Title will remain in America. The Combined Shipping Adjustment Board will determine the uses to which the ships leased to Britain be put. Control of the employment of the others will rest with the United States.

NO VICTORY JAMBOREE

Despite the fact that this war's greatest victories for the Allied Speak but the letters for ice cream they were. It will be a lucky Jap armies were achieved last week, nowhere has there been a report of any such celebration in this country as marked even minor victories in She has the answer without a mis- war without handcuffs on him. World War I.

This lack of exuberance is a tribute to the morale of the home front. Everybody at home knows that even when Hitler has followed Ellen Elizabeth knows what is what! man's success. Benito down the trail to oblivion a huge job remains-that of dealing with Japan

This acceptance of notable victories with placidity is not complacency. It is stern realization of the job ahead; knowledge that licking the Knows if we spell it, it's candy Japs is going to call for even more of our resources than knocking Italy out of the war and ending the Nazi reign of terror in Europe.

Celebration followed celebration after the Germans were stopped Take it from Grandpa, a smart little at the Marne in that summer of 1918. But Tunisia fell with no jubilant whistle blasts in this country. The Parent Problem By Garry C. Myers, Ph D.

PRAISE CHILD'S WORK

From the time the children I know best seemed to respond to a smile or word of approval, their mother seemed to make it her central aim, in dealing with them, to celebrate successes in them. She did not hesitate to rebuke, forbid or even punish hem when she was sure she should, yet her major emphasis was always on the things they were doing well and right.

When with crayons, 'bcks or other things, the tot created something in his own crude way, gave it a name and called it to her attention, she found time to enjoy it and possessed enough imagination to recognize in it what it was named.

As the child gradually acquired more skil' in making things with tools, he was pretty sure to have what he made appreciated by her. Nor was anything he made thrown away. It was carefully protected till its young creator was ready to dispose of it, however inconvenient or the wall facing the front door,

SAMPLE OF ALLIED PRECISION BOMBING IN SICILY

ALLIED TROOPS MARCH THROUGH THE TOWN of Melilli, Sicily, soon after they had captured the town. Here is a sample of Allied precision bombing. Shells and bombs have caused damage all around the Church of St. Sebastiano, but the church itself is unharmed. This is ample proof that Allied bombs were not dropped on non-military objectives or churches. This is an official OWI photo. (International)

No'Absentee, He Vice-President To Speak At Post-War World Plan Meeting

WASHINGTON, Aug. 10.-Vice-President Henry A. Wallace today spurred the drive for a showdown in congress on postwar world organization by accepting an invitation to speak in Chicago, Sept. 11 at a meeting sponsored by support ers of the Ball-Burton-Hill-Hatch resolution.

The vice-president, it was said may not directly back the wording of this resolution, but will support the general principle that the senate go on record for a United Nations organizations both during and

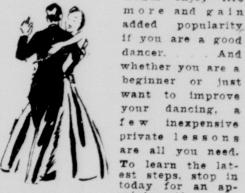

after the war. Under terms of the resolution, th senate would commit itself to formation of a United Nations organization to have peace and for an international force to police the world in the future.

Bookkeepers for a Nation

Unheralded! Unsung! ... It's time to praise the bookkeepers of our nation . . . for, without them, the wheels of industry would not turn to produce vital war materials and keep supplies rolling up to the home front and on to you.

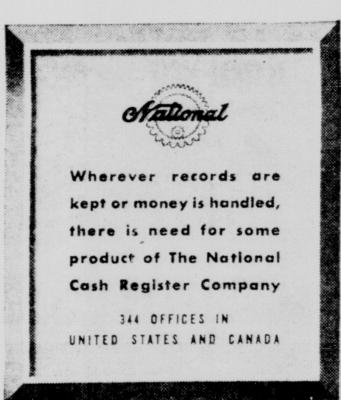

VITHOUT machines to help them do this job, hundreds upon thousands of new bookkeepers would be needed to keep our records, and millions of man-hours would be stolen from our war effort.

National Typewriting-Bookkeeping Machines in industry, in business and in government are speeding record making and record keeping for the nation because they are simple and easy to operate ... for they alone combine the standard adding machine and typewriter keyboards with full visibility of forms in the machines. . . . Any typist with a knowledge of an adding machine becomes a proficient operator with a few hours' practice.

Nationals are flexible . . . for they can be changed to do all sorts of bookkeeping . . . like the statement you receive from the department store or the wholesaler . . . or for purchase records ... payroll writing ... posting general ledgers ... and other applications too numerous to mention

National Typewriting-Bookkeeping Machines, as well as all other National products and systems, save man-hours and provide protection over money and records for the nation's bookkeeping.

National Accounting-Bookkeeping Machines may be secured by essential industries through priorities. . . . A stock of modern used National Cash Registers is also available for business needs.

We proudly fly the Army-Navy "E" with two stars for 'unceasing excellence" in the production of precision instruments and other war material

Better Lighting

SPEEDS WAR PRODUCTION

One of the chief needs in the factories and offices to expedite production is good lighting. The keen eyesight of workers can be relied on only when conditions for work are right. Many times, nervousness and strain are the direct result of poor lighting, causing accidents and absenteeism. And proper lighting is as necessary in the home as in the factory. See that bulbs and diffusing bowls are cleaned often and fill the empty socks with the right size bulbs to give better light for better sight.

HALTING WAR EFFORT?

Reports have been received from various parts of the city and surrounding community some birds and animals have been eating and damaging some of the produce of the victory gardens and fields. Now we hear that rats are at work chewing at the sweet corn along the Mt. Jackson and Moravia road fields. So, these creatures seem to be in league with those enemies boring from within to hamstring the war

RETURNS FROM CAMP

Private William E. Weitz, Jr., of the Pennsylvania State Guard has returned from Indiantown Gap where he spent nine days in summer encampment and training of the state guard. Trains Soldiers

PHILADELPHIA—Though blind since the age of two, Thomas A. Benham, Haverford college physics instructor, is doing his share for the The 28-year-old teacher, always

accompanied by his faithful German shepherd dog, Hattie, instructs two groups of 25 soldiers in a pre-meteorology course. These men, following their training, will become weather officers in the United States Army Air Forces. Benham, who is married, likes to

work in the physics laboratory, where he points with pride to a milliammeter he constructed which contains figures in Braille.

His wife does all his reading for him and helps him mark his students' test papers.

"Tom has a remarkable memory and a wonderful mental picture of everything," she said, "I have to read it only once and he remembers it. I don't know anything about physics but I'm learning.

Benham can speak French and LONGEVITY appears to be the German fluently. Besides his two destiny of Gunnery Sergt. Giles army courses, he supervises projects W. Thompson, U. S. M. Gas Shortage Forces Goshen Event To Be Run At Empire Track

STAKES OF \$40,000 WILL BE RACE GOAL

By LAWTON CARVER nternational News Service Sports Editor)
NEW YORK, Aug. 10.—An event as typical of Rural America as a turkey shoot or horseshoe pitching will be run off on Wednesday afternoon for \$40,000 on the very fringe of New York City. This is the originally despised hayseeder corntassel derby, better known as the Hambletonian trotting stakes, which has grown into one of the nation's most important sports extravagan-

Inaugurated in 1926, the Hambletonian was a resounding flop in spectator appeal until finally it was moved to Rustic Goshen, N. Y., and there it blossomed into its current position as a highlight on the sports calendar annually. The gas shortage forced transplanting it to the local Empire City horse track for this running, but with no detrimental effects. They will pack in the customers, including those who don't know a sulky from a tallyho, for all witnesses to this renewal have one thing in common—they do know a parimutual window when they see

By way of preparing the city cusomers for the big event, the harness racers already are in action at Empire City with daily programs starting a 34-day meet that will carry through this mon h. By this time the city customers know the difference between a pacer and a trotter and can get as sore as an old hand at the game when the horse they're backing suddenly "breaks" and gets himself out of one of the events being run off every after-

Probable Field

Needless to say most of us around here remain slightly in the dark on the possibilities of the various entries for the Hambletonian, but we can take the word of those who say they know they tell us that of a probable field of 15 there are three standouts.

The No. 1 big horse of them all is Volo Song, champion two-yearold trotter last year, winner of three straight this year and to be driven by wise old Ben White, 70-year-old reinsman who stands as the only man ever to win the Hambletonian

The co-favorites are Worthy Boy with three wins, two seconds and one third this year, and Phonograph, winner of two races and second three times.

They say the winner must come from among that trie, each of them a son of the famous Volimite. Leading outsider is Austin Hanover, which recently stepped the distance, a mile, in 2:045

Aside from swiftness at a trotting gait, the event also calls for durability. The decision is reached in three heats, if it is necessary to go that far in the event one of them | 8:55-Alan Freed, News. loesn't sweep two in a row. Running two such races is not exactly a walk around the corner to get a 10:30-Harry Greer. bite of hay for these keen animals. With \$40,000 on the line there is no tarrying along the way. The 11:20—Joan Brooks, Songs. gents riding back there in the little 11:30—Invitation To Music. soap-boxes on wheels see to that as they swish their long buggy whips and nudge the last ounce out of

There is always a possibility of a good, old-fashioned mixup of tangled wheels, followed by careening buggies, sprawling drivers and horses leaping about trying to get clear of the wreckage. No jockey ting his official height at 6 feet 63-8 riding in the Kentusky Derby or inches, the Fort Warren public reany other rich running stake ever lations office announced today that put more into an attempt for vic- Milo Komenich, center of the tory than these old and young gents championship Wyoming U basketwho litterally follow the horses.

FROM ME TO YOU

By MESEEALL

People were a little timid about playing golf a month ago . . we are told that this past week-end quite a nice crowd was seen on the various courses and that a fine time was had by all. Some walked to the courses (very few); some rode bicycles (very few), and some drove their autos (good many), but why shouldn't people drive? The way the lies are being flung around by the powers that be, one can't tell what is what. Let them give us a few gallons of gas and when we use that up, it's our tough luck. People don't like being herded around like a bunch of Nazi . . . This is the United States and if Mrs. Roosevelt can travel all over the world by airplane . . . surely we lowly subjects can drive to a nearby golf course.

Victory gardeners are getting a big kick out of their gardens now . . . Their first crops have been harvested or about to be harvested and the food looks mighty fine in the glass jars. And it will taste mighty fine this winter when it's cold and snowy . We can look back and say, remember when we picked those beans, my that was a hot day . . . And remember how we struggled tieing up those tomato plants . . . and then the storm came along and tore them down . . . Yes, memories are fine if you have pleasant

What are you doing to help out in the times that we are having today? . . . Are you selling war bonds, working for the Red Cross, the U.S.O., or any other war agency? Can you truthfully say that you have done all that has been expected of you in helping out? Take stock of yourself, you have but one to answer to . . . so be honest, there's no fun in fooling yourself.

Let's break in here with a word about the classified ad page that runs daily and is read daily . . . And we mean read and re-read daily by thousands of people in your own county. People want to buy and people want to sell all of the time and if you are one of the people who come in that class some of the time . . . So it pays to read this little old page . . . Don't take our word for itjust take time to read . . . Help wanted column, used articles, houses for rent and the other 53 classifications that appear here daily. Thanks for reading this far.

Bessemer Solon **Boosts Borough**

Burgess Montgomery Gives Fine Talk At Meeting Of New Castle Rotary Club

TELLS HOW HIS TOWN HAS GROWN

Burgess Carl D. Montgomery, of Bessemer, who is proud of his home about telling the world about it, was the speaker of the New Castle Rotary Club at its noon meeting, Monday, giving a fine talk on what a small town can do in the way of uplift, once its people are imbued with the proper spirit.

Sgt. Isaac George, Jr., who has been in the Hawaiian Islands for several years, and who was stationed there when the Japs made their attempted knockout punch on December 7, 1941, was also a guest of the club, and answered the questions of members as to what took place on hat momentuous occasion. He is home here on a 15-day furlough, enroute to a new assignment in Ten-

Burgess Montgomery, in telling about how Bessemer in a short period has grown from a handful of shanties and an immigrant populaion, to a modern borough, stated that Bessemer boasts of the largest continuous brick kiln in the world, and that its output of brick from two brick plants is 36,000,000 paying block a year, enough to pave 108

The Bessemer Limestone Company also turns out two millions of barrels of cement in a year, enough to pave 266 miles of road.

He told of how the borough has had the quarry pools, dangerous to life of youth drained, and has improved one and stocked it with fish. It has a bathing beach and a life guard keeps virgil during the sum-

He paid tribute to the ability of Gerald E. Nord, who he credited with building up Bessemer's fine school system, and who has now come to New Castle as principal of Ben Franklin Junior High school. He also paid tribute to his chief of police, Archie Shoup, well known to New Castle people, who keeps law and order at a high level in Bes-

LIEUT. CROWLEY NEW COMMANDER OF BUTLER TROOP

Lieutenant Andrew J. Hudak commander of Troop D. Pennsylvania State Police at Butler for the past several years has been transferred to the command of Troop A at Greensburg, Pa., it was announced today. Lieutenant Martin J Crowley, who has commanded the Greensburg troop comes to Butler as commander in place of Lieuten-

in New Castle and was with Troop D in Butler for many years. His last post with the troop was that of first sergeant. He now returns to command the troop in which he

also returns to the troop with which try. Cpl. Stuart had been cited for mins.
